Professional Summary

Accomplished UI Developer / Frontend Engineer with over nine years of experience specializing in component/modular based frontend architectures. Proficient in strategically developing, maintaining and extending UI components to support underlying design systems and web applications. Demonstrated expertise in collaborative efforts with UI/UX Designers, Product Owners and stakeholders to seamlessly translate designs into meticulously crafted code implementations. Proven liaison of communicating technical concepts to non-technical audiences as well as utilizing design prowess to accurately articulate a designer's intended vision.
